

# Computer Science Accelerator Program – North London

## What is the Computer Science Accelerator Program?

The [Computer Science Accelerator Programme](#) is a professional development programme designed to support teachers who want to improve their knowledge of computer science and teach it at GCSE level.

## What do teachers have to do to qualify?

Teachers have to complete two face to face courses, two online courses and pass a final test to qualify. Full information about this can be found [here](#).

## What bursary funding is available?

Schools are eligible to claim a £440 bursary for each face to face course the teacher completes. When the teacher passes the final test, schools can claim a final bursary of £620. For a limited time, teachers participating in a course before February will also qualify for an extra £300 for their school. Courses are free.

## How can I book courses?

The following Face to Face courses are available in North London at the Ada National College for Digital Skills (click to book):

- [Algorithms in GCSE Computer Science](#) 11/2 & 25/2 (10-4)
- [Python programming essentials for GCSE computer science](#) 10/3 & 31/3 (10/4)
- [Data and computer systems in GCSE computer science](#) 21/4 & 5/5 (10-4)
- [Networks and cyber-security in GCSE computer science](#) 19/5 & 2/6 (10-4)
