Have your say

Barnet Council's general budget consultation 2020/21

7 January - 3 February 2020

Earnet Council made £174m in budget savings between 2010 -2019, while protecting frontline services as much as possible.

As funding decreases and demand for services and costs increase, the council faces a budget gap of £71.8m* to 2024/25; this includes a £17.3m* budget gap for the next financial year, 2020/21.

We want to know your views on our proposals to meet the budget gap in 2020/21 on:

- the overall budget including our savings and income proposals
- General Council Tax
- applying a social care precept to help pay for adult social care.
