

Barnet Safeguarding Adults Board Operational Plan 2020-21

Our vision is for all adults at risk in Barnet to be safeguarded from abuse and neglect in a way that supports them to make choices and have control about how they want to live safely.

Our Principles: we are committed to the core safeguarding principles which we use to assist us examine and improve our local arrangements.

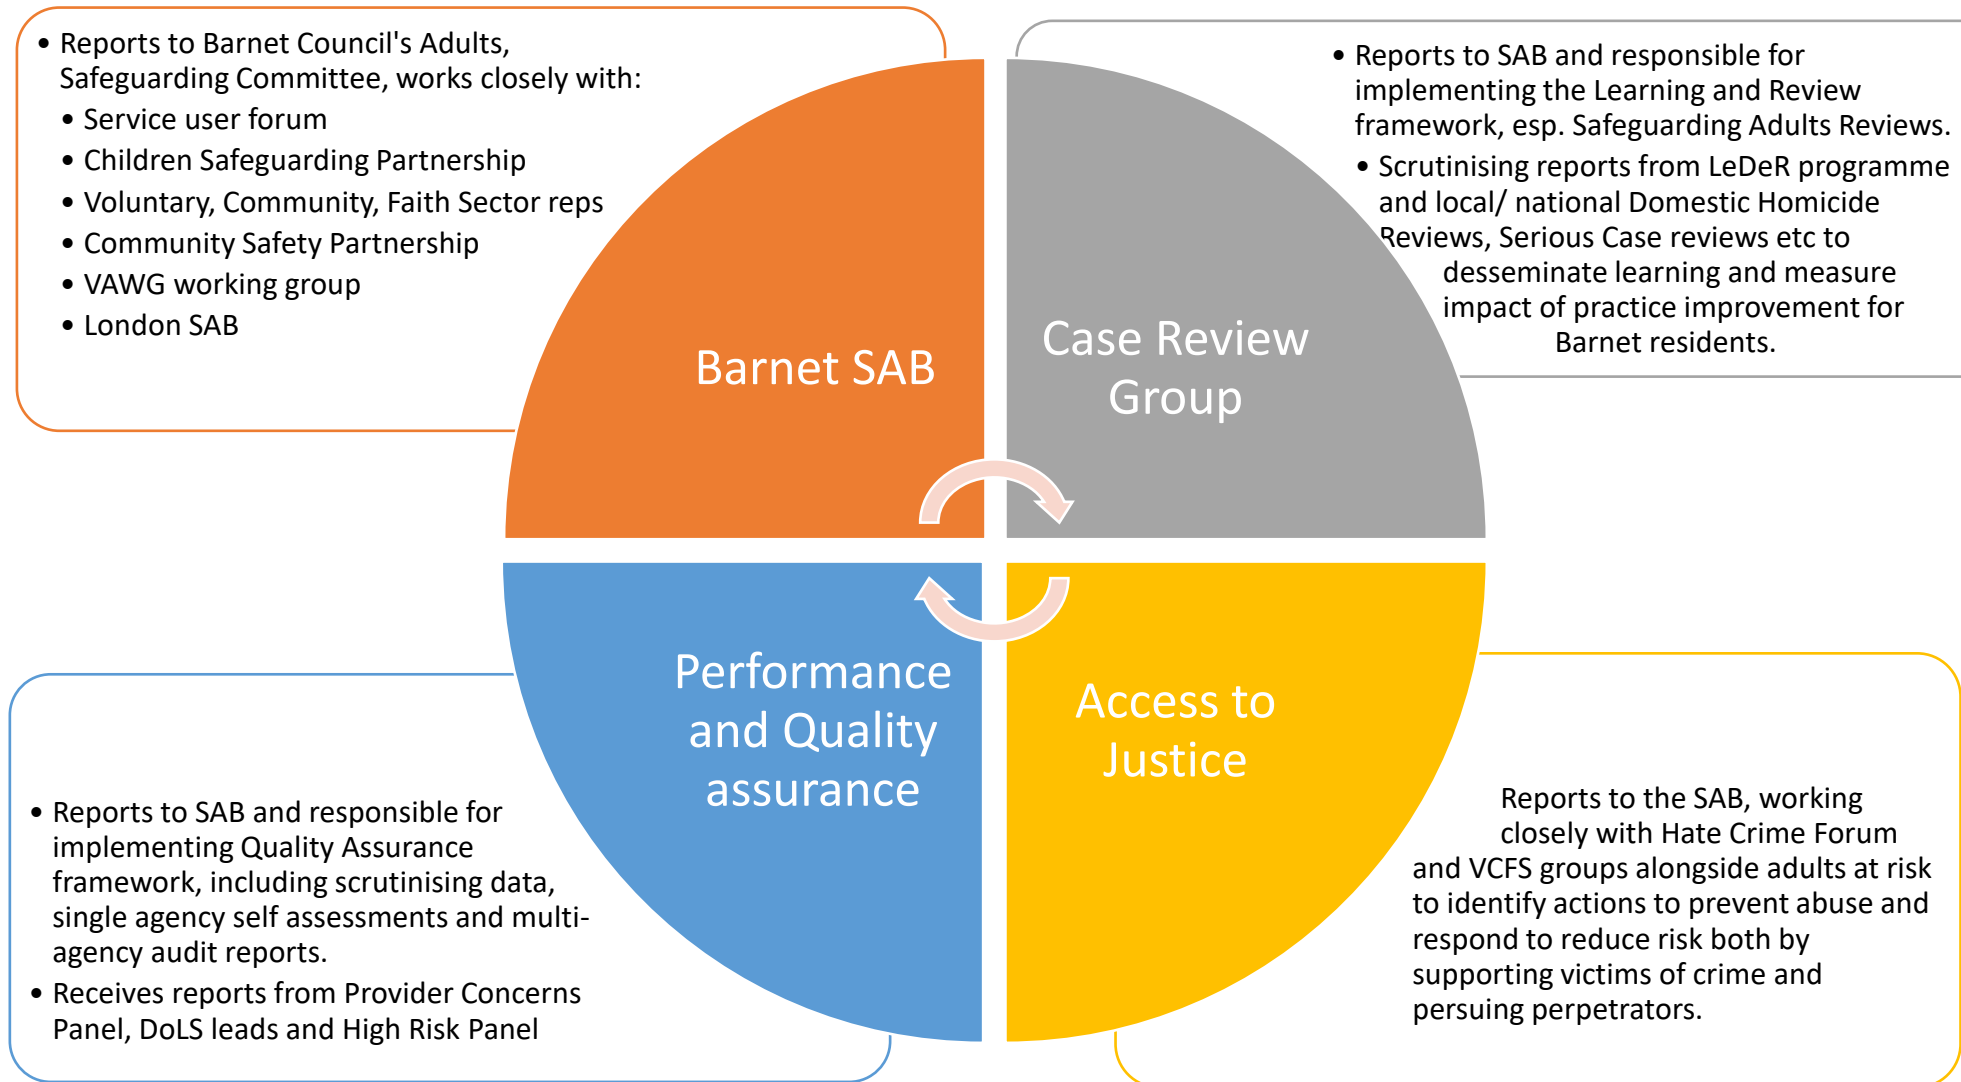

Our Key Priorities 2018-21

Throughout this plan we will aim to **increase co-production** with adults who have experienced safeguarding services. We have built this into our business by ensuring the SAB board manager has contact details for all partner agencies service user forums or expert by experience panel coordinators and included key task for all leads to actively demonstrate they have taken steps to draw on experts by experience to support specific pieces of work of the Board.

We have also responded to feedback to **improve community engagement** and work more closely with colleagues in the voluntary, community and faith sectors. It remains a core aspiration to improve parity between those working to improve practice, whether they work in the statutory, voluntary or community based organisations or are experts by experience.

Our Structure

Our Strategic Priorities

Priority One: Establish practice across the partnership agencies which reflect Making Safeguarding Personal principles							
Item number from strategic plan	SAB Function	What we will do	How will we do it	Responsible Leads and how we'll engage with experts by experience	Measure of Success	Next steps/impact for adults at risk in Barnet	How will the community know about improvements?
